

Monroe City (MO) Manor Care Center's "Uptown Funk" / COVID-19 Music Lyrics

This virus, it's ice cold

Joe Diffie, was country gold

This one's for the families

We're working hard, little busy bees

Whining, crying, thinkin' about the big city

Washing hands and wearing gloves

The shortage, it's a pity

Keep us safe (I can)

Washing hands and travel ban

Keep me safe (yes ma'am)

Loving everyone like their fam

Keep us safe (sure can)

Every woman and every man

Keep me safe (I can)

Quarantine not a fan, break it down

Grandmas hit your hallelujah (wooh)

Grandpas hit your hallelujah (wooh)

Residents hit your hallelujah (wooh)

Cause manor staff not givin' it to ya

No visitors in so can't give it to ya

Isolating won't give it to ya

Don't want the germ, just wash (come on)

Don't want the germ, just wash

Don't want the germ, just wash

Don't want the germ, just wash

Scrub, scrub, scrub, oh

Stop, wait a minute

There's a germ, lets sanitize it

Shake it up, spray it down

Vonda, quick grab a gown

Distancing, no big crowds,

Planning and screenings

IF we work hard, we can keep it out

Safer than most human beings

Before we leave let me tell you a lil something

Our residents are safe

We will keep them safe

Our residents are safe

We will keep them safe

Our residents are safe

We will keep them safe

Come on just wash 'em

Hands clean then show 'em

Wearin' a mask flaunt it

Put it on and show me

Missing them

Then show them

Come to the door or call 'em

No corona up in this spot

Sanitize and wash come on
